The Case for a Larger Israel

Loan guarantees are not considered foreign aid so the \$7.9 billion in guarantees have been excluded from this table. This table also excludes funding for certain other projects the CRS does not consider foreign aid, such as the \$180 million for the research and development of the Arrow missile.

This Appendix has been recreated from a table entitled *U.S. Assistance to Israel (FY1949-FY2006)*, from Jewish Virtual Library, available at www.jewishvirtuallibrary.org/jsourc/US-Israel/U.S._Assistance_to_Israel1.html.
